

# LICENSING RENEWAL, LOCAL SUPPORT, & OPTIMIZATION

Working with an Atlassian Platinum Solution Partner on your next renewal saves time and money. Sentify will help you capitalise on your Atlassian investment, optimize your licence structure, and gain support for your team's journey to best practice usage.

## 01

### Tooling Health Checks

Sentify Health Checks are deep dives into licencing, tooling usage, and the team's adoption of available features.

Our Technical Specialists identify improvements you can make in automation, interoperability, architecture, best practice workflow configuration, reporting processes, and much more.

## 02

### Strategic Atlassian Uplift Roadmap

Sentify will work with your team to create a Strategic Atlassian Uplift Roadmap.

We work alongside you to uplift your Atlassian technical competencies facilitate best practice behaviors, and ensure that your Atlassian usage is optimized and cost-effective.

## ABOUT US

Sentify is a technology consulting services company. At our core are leadership skills and deep technical experience, in delivery assurance and automation. It's this unique combination of both cultural and technical capability that sets us apart.

Kevin Anderson | SVP | [kevin.anderson@sentify.co](mailto:kevin.anderson@sentify.co)

[www.sentify.co](http://www.sentify.co)

Sentry's licensing services provide a single point of contact for your Atlassian needs. Our licensing management is designed to simplify, optimize, and support your Atlassian platform. Much more than a reseller - Sentry are experts at reducing your costs and increasing your performance.

# 03

## Service Desk interface for Technical Q&A

Your teams will have access to log issues and manage tickets directly with the Sentry Service Desk.

# 04

## Expert Atlassian Specialist

We help you reach your Strategic Atlassian Roadmap by providing expert specialist training.

Establish best practice tooling usage and integration, workflow configuration and reporting, and facilitate optimization and automation.

# 05

## Operational & System Administration for Atlassian

Save resources by outsourcing the operational and system administration maintenance of your Atlassian platform.

We ensure that you are running at an elite level by keeping you up to date with upgrades, patching, plugin installation and maintenance, access controls, user provisioning and much more.

# 06

## Commercial & Delivery Governance

Simplify commercial delivery with a local agreement. Move away from credit card payments onto terms that suit your billing cycle.

The correct governance over your portfolio helps ensure consistent value.
